Science is the one subject that encompasses everything in life and serves as the backdrop for comprehending and appreciating our world in new ways. The STEM-tastic day camps provide a strong emphasis on hands-on and inquiry-based learning activities through the inclusion of informal education. Participants will better understand the daily uses of STEM education in the community and in the military, and will be able to meet other military-connected youth in a fun and safe learning environment!

**Army Reserve & National Guard (Army/Air) Youth Ages 6-14**

**Limited Space Available - REGISTER TODAY!**

Registration forms available on the Hawaii OMK website: www.ctahr.hawaii.edu/4H/OMK
